Teaching Online

We have to teach all the Bible courses online since Covid-19 spread for the third time in Thailand. Now there are about 3-4,000 new cases and 30-40 dead every day. We think it would be safer for all of us to learn online since vaccine shots are distributed very slowly here.

Also, the Chinese vaccine, AstraZeneca, is not as good as the ones from the United States. It can not prevent all the new strains of Covid-19. I personally will wait for the U.S. vaccines at the end of October, which will cost at least \$100, but are free in America.

Maybe I ought to fly to America and get the vaccine and visit churches at the same time since I have not been back for 12 years already.

Steve is teaching his online class from his house.

Moved to Bangkok

Because of the reducing of support from the U.S., Iz, my 20 year assistant and his family had to move to Watcharapol church in Bangkok.

He will be a preacher there at his home town. We are glad that the Lord opened up a position for him to go home.

He will be a great asset to the church there with experience as a preacher and teacher from Kum Hai church.

Bible Talk Thailand

I am doing a daily 10 minute Bible study online through Face book and Youtube, Monday through Friday; including a Sunday morning sermon. Just finished a series on the "Sermon on the Mount", Matthew 5 – 7.

Normally, there are around 500 – 700 viewers each clip. There are a few over one thousand. The highest is a sermon which is around 60.5K. My next series will be on "Miracles"

Danny, my son in law, is my camera man. He is doing a great job in taking video clips and editing them. So proud to have him help with the Lord's work.

Sunday Worship Service Begins in September

We have stopped the Sunday worship for the last three months since the third round of Covid-19 spread in Thailand.

We hope that by the first week of July, it will be under control again, and the church will be able to get back to worship on Sunday morning.

Please pray for us as we pray for you. America will get a head start before us since we don't have enough vaccines for the Thais yet.
